## Millicent Frema

In our last newsletter, we had requested help for Millicent for her farming operation. Roy indicated when he was there that she is such a sincere hard working woman. We were able to help her with her farming supplies however it was noticed that she has a growth on her neck which would need to be looked at by a doctor to relieve the pain. She is not able to

afford going to a doctor therefore we are asking for help to send this nice lady to a doctor and have this problem taken care of before it cuts off her ability to eat.

## Akosua Adomah

So many times you will hear stories such as this one where Akosua, who is 67 years old and is a widow, has to care for her grandchildren. She has 2 grandchildren that lost their parents and she is the only one to care for them. She can't work hard to take care for herself and now she has to take care of the children and their living conditions are very poor. By the grace of God we are hoping to at least get them with a bed and mattress to sleep on and to provide them some food.

## 2023 BLESSINGS

76 Families

with an average of 3 children have been helped

13 Businesses

were started

18 New Homes

families were placed in new homes instead of living in unfit quarters, like a chicken coop.

25 Wooden Beds & Mattresses

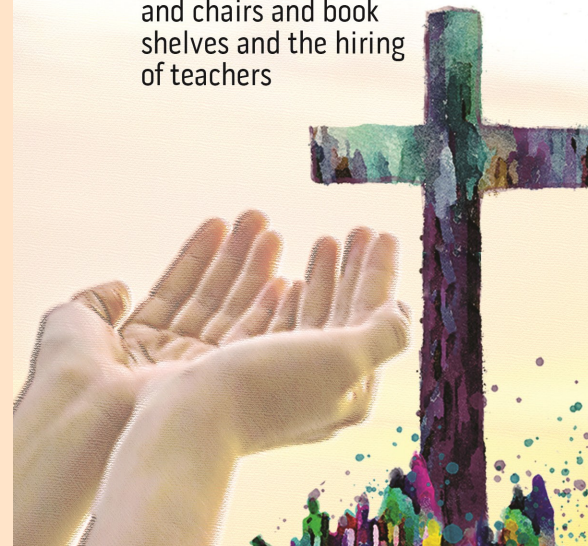

some of these people never slept on a mattress.

Medical Expenses

were paid for a number of people otherwise they would have died.

School Expansion

The school was able to expand with the purchase of table and chairs and book shelves and the hiring of teachers

**2 Cor. 9:12** *This service that you perform is not only supplying the needs of the Lord's people but is also overflowing in many expressions of thanks to God.*

## Enugu, Africa

We're so excited that we were able to have Pastor Simon Ekuma purchase some food for the widows in Enugu Village. They were so happy that they were singing and dancing.

As you can see in the picture, Pastor Simon was able to build a barn to keep their yam harvest in for the year. What a valuable asset of a great harvest to feed a number of people.

The goats for Pastor Simon were roaming around too much in the area so he had to build a barn to house the goats. This will keep them from doing damage. Interesting barn compared to our building here in America.

## School in Ejisu

The school in Ejisu is getting a credibility for its fine education and is increasing in grades that Pastor Benjamin had to have some more desks built. The children were so excited to have such fine desks to sit at and learn.

Isa. 58:11 *The Lord will guide you always; he will satisfy your needs in a sun-scorched land and will strengthen your frame.*
